

EXECUTIVE SUMMARY

Coordinated Plan

Objective: To have the Policy Committee approve the enclosed Coordinated Plan.

Considerations: The previous Coordinated Plan was approved by the Policy Committee in 2014. Staff has worked on an update to the 2014 plan as is required every four years. The Coordinated Plan, a **required element to award funding from the Federal Transit Administration** in a metropolitan area, consists of four key components:

1. Assessment of available services;
2. Assessment of needs for persons with disabilities, seniors and people with low income;
3. Strategies or activities to address gaps in the transportation system; and
4. Priorities for implementation.

This plan has been updated to include 2015 American Community Survey data and input from various human service agencies and transportation service providers in the area.

Staff will provide further information at the meeting.

Staff Recommendations: The Planning Committee reviewed the Coordinated Plan at their meeting and recommended that the Policy Committee adopt the Plan.

Meeting Notes
