

# EXECUTIVE SUMMARY

## SKANEATELES MULTIUSE CORRIDOR STUDY — DRAFT FINAL REPORT

**Objective:** To obtain a recommendation from the Planning Committee that the Policy Committee acknowledge the completion of the report.

**Considerations:** This study was undertaken at the request of the Town of Skaneateles. Its purpose was to identify technically-feasible on-and-off road bicycle and pedestrian amenities to connect users of the Charlie Major Trail (located in the town) to the Fennell Street Business District (located in the village). An off-road trail was considered along Skaneateles Creek. The study identifies several options to improve two focus area intersections (Fennell/Old Seneca Turnpike and at Fennell/Jordan), and identifies facility options for Fennell Street.

A copy of the Executive Summary as well as a CD of the draft final report have been included in the mailing.

Staff will provide a brief presentation at the meeting.

**Staff Recommendations:** That the Planning Committee recommend that the Policy Committee acknowledge the completion of the report at their June 12 meeting.
