

EXECUTIVE SUMMARY

LRTP System Performance Report

Objective: To have the Policy Committee adopt the Long Range Transportation Plan (LRTP) System Performance Report.

Considerations: The SMTC staff has developed a System Performance Report as required by the FAST Act. The System Performance Report addresses the Highway Safety and Transit Asset Management performance measures in accordance with Federal Rulemaking (other performance measures will be added in the next full update of the LRTP). Baseline conditions and 2018 targets for the required measures are included in the report.

Staff will also provide an overview of the proposed LRTP System Performance Report at the meeting.

Staff Recommendations: On November 27, 2018, the Planning Committee recommended that the Policy Committee adopt the System Performance Report as an addendum to the 2050 Long Range Transportation Plan.
