

EXECUTIVE SUMMARY

Additional Performance Measure and Targets

Objective: To have the Policy Committee adopt the Performance Measure Targets.

Considerations: As required by the FAST Act, the SMTC has the option to either adopt the performance measure targets established by the State or develop our own. The State adopted targets for several performance measures on the National Highway System in May 2018. The safety targets were adopted August 2018, while Centro adopted the Transit Asset Management targets in October 2018.

- Bridge performance
- Pavement performance
- Freight
- System performance
- Safety
- Transit Asset Management.

Staff will provide an overview of the proposed Performance Measure Targets at the meeting.

Staff Recommendations: On November 27, 2018, the Planning Committee recommended that the Policy Committee adopt the Performance Measure Targets.
