

EXECUTIVE SUMMARY

Updated TIP Narrative

Objective: To have the Policy Committee adopt the Updated TIP Narrative covering Transit Asset Management.

Considerations: As required by Congress, various items must be adopted by MPOs to fulfill performance-based planning & programming regulations. One such item is that an MPO Transportation Improvement Program “shall include, to the maximum extent practicable, a description of the anticipated effects of the transportation improvement program toward achieving the performance targets established in the metropolitan transportation plan, linking investment priorities to those performance targets” [23USC §134(j)(2)(D)].

The attached, which is focused on Transit Asset Management performance measures and targets, adheres to this requirement. This is an update to the initial narrative adopted by the Policy Committee in June 2018 that focused on safety. Further discussion will occur at the meeting.

Staff Recommendations: On November 27, 2018, the Planning Committee recommended that the Policy Committee adopt the updated TIP Narrative.
