

EXECUTIVE SUMMARY

City Sidewalk Snow Clearing Assistance—Draft Memorandum

Objective: To inform the Policy Committee that staff completed the a Sidewalk Snow Clearing Assistance project for the City of Syracuse.

Considerations: In July 2018, SMTC staff met with City of Syracuse staff to discuss steps the City could take to launch a sidewalk snow clearing pilot project during the winter of 2018/2019. SMTC staff offered to assist the City with the process of prioritizing routes to be cleared based on a preliminary budget. SMTC staff provided a set of 20 centerline miles (40 miles of sidewalk), focusing on high-volume streets that connect to schools and grocery stores, as well as to street segments already being cleared by the School District, the City Department of Public Works, and/or the Downtown Committee.

Staff will also provide an overview of the assessment at the meeting.

Staff Recommendations: No action is required of this Committee as this is presented as an informational item.
