

# 2024 Community Streets Project Selection - Ed Smith PTO

Inspired by recently painted curb extensions in front of Huntington K-8 School, the Ed Smith PTO aims to utilize similar techniques at two intersections near the school. Coyote paw prints will line the painted curb extensions as a source of school and community pride. Both intersections are critical locations for lowering speeds as drivers enter the school zone. Visually narrowing the street will not only encourage slower speeds through the intersections, but also improve visibility for pedestrians of all ages.

## Project Details

**Project Sponsor:** Ed Smith PTO

**Location:** Broad St / Kensington Pl intersection; Lancaster Ave / Lancaster Pl / Andover Rd intersection

**Details:** Painted curb extensions aimed at narrowing roadway as a traffic calming measure.

**Installation Date:** August 3, 2024
