

SMTC's Forum on Active Transportation | January 25, 2022

Note: Questions that were submitted prior to and during the meeting were answered live by SMTC and member agency staff. A recording of the meeting is available on our YouTube channel at www.smtcmpo.org/watch. There were no additional questions requiring follow-up from this meeting.

Post-meeting evaluation results

45 people registered for the meeting (excluding SMTC staff), and 24 people participated (excluding SMTC staff).

There were 8 responses to the post-meeting evaluation form.

1. Does this meeting time (3:30 p.m. on a weekday) generally work for you?
 - Yes: 7
 - No: 1

2. If this meeting time does not work well for you, what time - on weekdays - would you prefer?
 - Evening (6:00 p.m. or later): 2
 - Midday/lunch time (around noon): 2
 - Early morning (before 9:00 a.m.): 0

3. Please rate the ease of use for the Zoom meeting platform on a scale of 1 (difficult to use) to 5 (very easy to use)
Average rating: 4.625

4. Do you have a suggestion for a presentation topic or guest speaker for our next meeting?
 - I appreciate the open & willingness to work with all on the Zoom. Time for comments and questions was given and responses were informational and transparent. Honesty was appreciated when mark may have been missed with ped/bike counts, etc.
 - More time for Q&A
 - New/more varied speakers.
 - Maybe about the group bike rides, Cycle in the City, Slow Roll, Syr. Bike Party, any others?
 - CENTRO and using public transportation in Syracuse
 - I love the topic of scooter and bike share!
 - Potential Presentation Topics: Sustainable Transportation, BRT, Urbanism (CNU).

5. As COVID-19 safety protocols evolve, we anticipate that the SMTC will begin holding in-person meetings again at some point in the future. If in-person meetings are allowed, how would you prefer to attend future Forum on Active Transportation meetings?
 - I would prefer to continue attending meetings virtually.: 5
 - I would prefer to attend meetings in person once COVID-19 safety protocols allow.: 3

6. Any other feedback you would like to offer about the meeting?
 - I suggest providing a hybrid model. Covid protocols may be allowed, but some may not feel comfortable, safe or have the transportation to attend in-person meetings.

- Having meetings during work hours seems like it would only allow for folks who are not working or retired to join, or folks who have the privilege of having flexible work hours.
- Look into more collaboration with other groups like TNT, GreeningUSA, and various University Programs.
